# Training journey for Cloud IT Pros

Grow in role

## Start here

**Implement, manage, and monitor cloud solutions**

Azure administrator

[AZ-104](#)

Choose additional paths that best fit your role and projects

**Implement and manage secure cloud solutions**

Azure security engineer

[AZ-500](#)

**Manage SAP solutions on Azure**

Azure for SAP workloads

[AZ-120](#)

**Implement and manage networking solutions**

Azure network engineer

[AZ-700](#)

**Bring cloud agility on-premises**

Azure Stack Hub operator

Delivered only by Microsoft Learning Partners

[AZ-600](#)

**Deliver virtual desktop experiences and remote apps on Azure**

Azure Virtual Desktop administrator

[AZ-140](#)

**Troubleshoot networking and connectivity issues in Azure**

Azure support engineer for connectivity

Instructor-led training coming soon

[AZ-720](#)

## Master the basics

**New to the cloud or new to Azure**

Azure fundamentals

[AZ-900](#)

**New to Azure administration**

[Prerequisites for Azure administrators](#)

# Training journey for Hybrid Cloud IT Pros

Grow in role

## Start here

Manage Windows Server on-premises, hybrid, and IaaS platform workloads

Windows Server hybrid administrator

[AZ-800](#)

[AZ-801](#)

Choose additional paths that best fit your role and projects

Implement, manage, and monitor cloud solutions

Azure administrator

[AZ-104](#)

Deliver virtual desktop experiences and remote apps on Azure

Azure Virtual Desktop administrator

[AZ-140](#)

## Master the basics

New to the cloud or new to Azure

Azure fundamentals

[AZ-900](#)

New to Azure administration

[Prerequisites for Azure administrators](#)

# Training journey for Cloud IT Pros Expert Level

Grow in role

## Start here

**Implement, manage, and monitor cloud solutions**

Azure administrator

[AZ-104](#)

Choose additional paths that best fit your role and projects

**Deliver continuous value integrating people, processes, and technologies**

DevOps engineer

[AZ-400](#)

**Design and implement end-to-end cloud solutions**

Azure solutions architect

[AZ-305](#)

## Master the basics

**New to Azure administration**

[Prerequisites for Azure administrators](#)

**New to Azure infrastructure architecture**

[Prerequisites for Azure solution architects](#)

# Training journey for Developers

Grow in role

## Start here

**Design, build, test, and maintain cloud apps**

Azure developer

[AZ-204](#)

Choose additional paths that best fit your role and projects

**Build, manage, and deploy AI solutions**

Azure AI engineer

[AI-102](#)

**Develop cloud and edge IoT solutions**

Azure IoT developer

[AZ-220](#)

**Develop cloud-native apps that store and manage data**

Azure Cosmos DB developer

[DP-420](#)

**Deliver continuous value integrating people, processes, and technologies**

DevOps engineer

[AZ-400](#)

**Migrate data to the cloud**

Delivered only by Learning Partners

[DP-050](#)

[DP-060](#)

[DP-070](#)

## Master the basics

**New to the cloud or new to Azure**

Azure fundamentals

[AZ-900](#)

**New to data solutions on Azure**

Azure data fundamentals

[DP-900](#)

**New to AI or new to AI on Azure**

Azure AI fundamentals

[AI-900](#)

# Training journey for Data & AI Professionals

Grow in role

## Start here

**Manage relational cloud  
and hybrid databases**

Azure database administrator

[DP-300](#)

Choose additional paths that best fit your role and projects

**Deliver continuous value integrating  
people, processes, and technologies**

Azure data engineer

[DP-203](#)

**Migrate data to the cloud**

Delivered only by Learning Partners

[DP-050](#)

[DP-060](#)

[DP-070](#)

**Build, train, and deploy  
machine learning models**

Azure data scientist

[DP-100](#)

[DP-090](#)

## Master the basics

**New to the cloud or new to Azure**

Azure fundamentals

[AZ-900](#)

**New to data solutions on Azure**

Azure data fundamentals

[DP-900](#)

**New to AI or new to AI on Azure**

Azure AI fundamentals

[AI-900](#)

# Training journey for Data Analysts

Grow in role

Start here

Maximize the value of data assets  
with advanced analytics

Power BI data analyst

[PL-300](#)

Build enterprise-scale data  
analytics solutions

Azure Enterprise data analyst

[DP-500](#)

Master the basics

New to the cloud or new to Azure

Azure fundamentals

[AZ-900](#)

New to data solutions on Azure

Azure data fundamentals

[DP-900](#)

New to Microsoft Power Platform

Microsoft Power Platform Fundamentals

[PL-900](#)

# Getting Started

Grow your technical skills through bespoke Microsoft Skilling solutions

Take advantage of a free Learning Consultation with our Experts and experience the value of Instructor-led Microsoft Azure Skilling with a complimentary 2-Hour Private Group Training for your team.

## Customizable

Flexibility to customize the training agenda as required

## Learn from Industry Experts

Highest quality learning from top-rated Microsoft Certified Trainers

## Skilling Plan

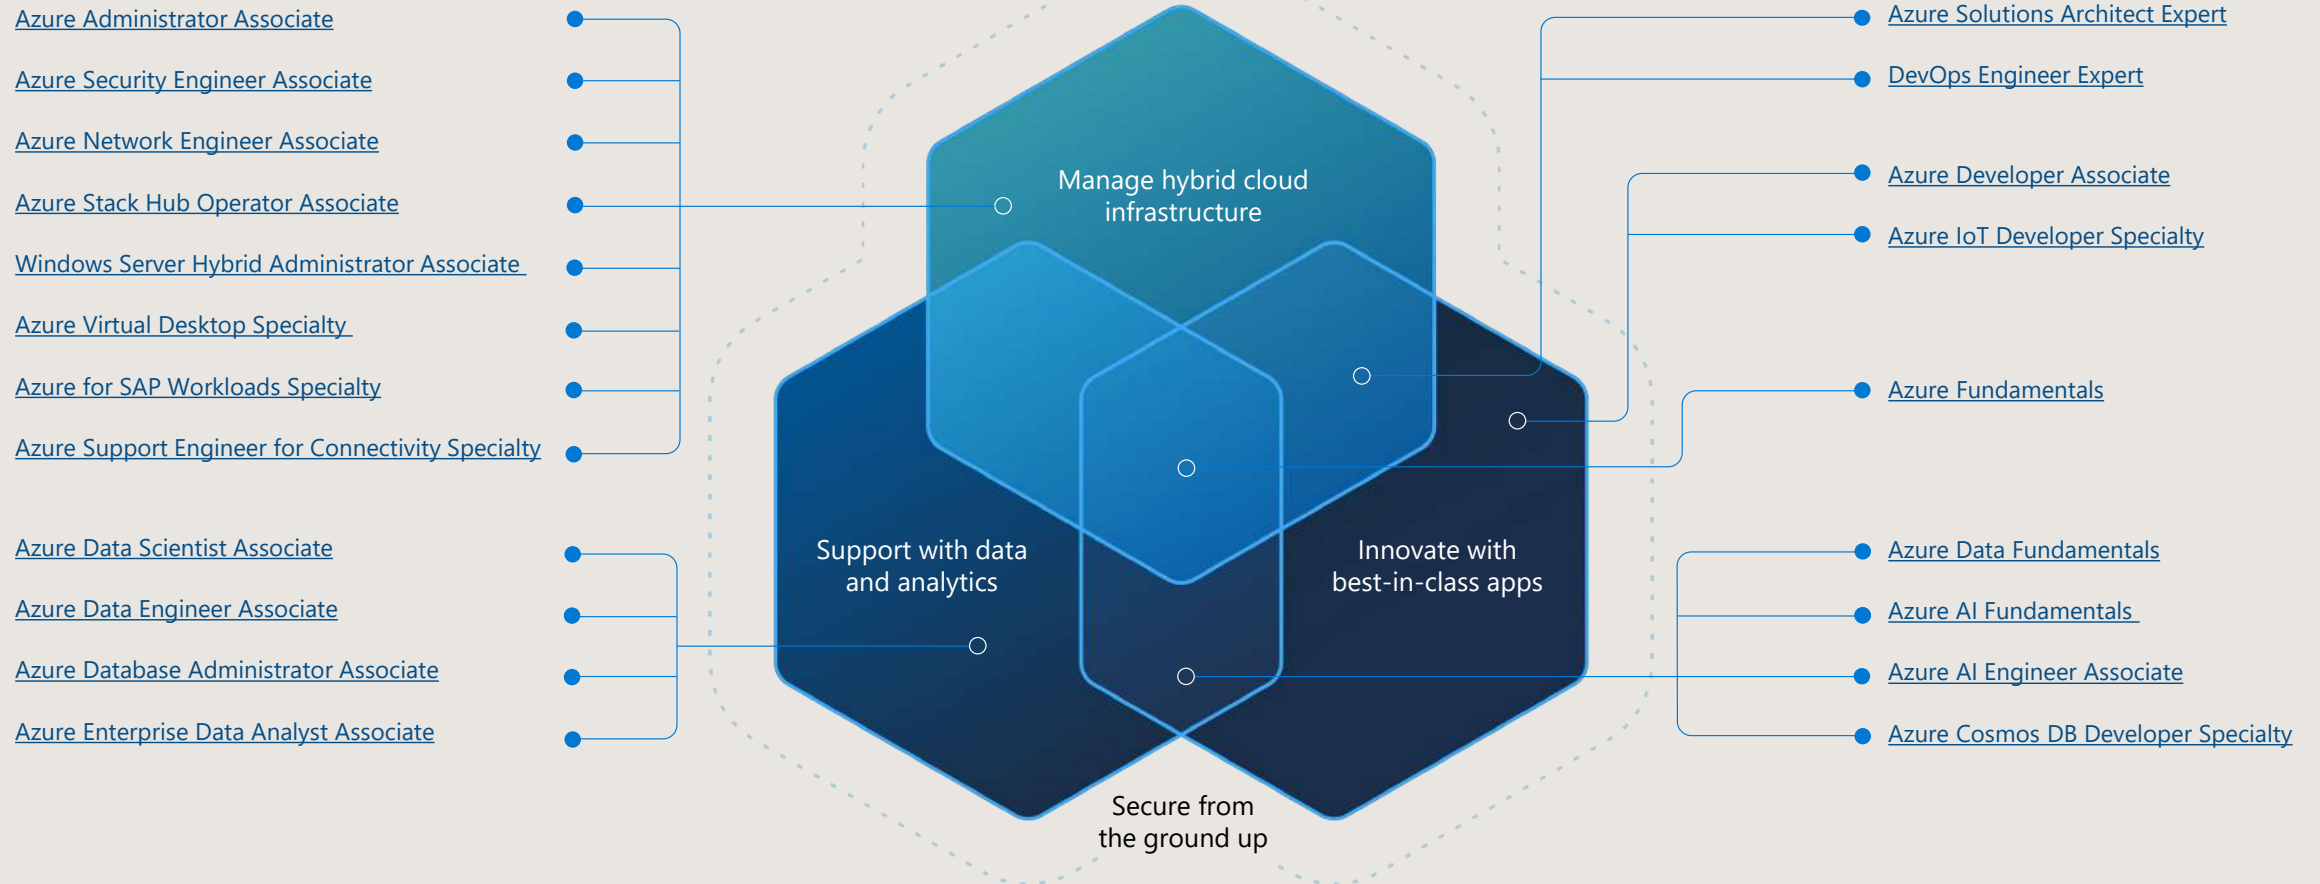

Get support on comprehensive Microsoft Skilling Plans tailored to your needs

# Microsoft Azure certifications

Help advance your career, earn recognition, and validate your technical knowledge and abilities in current and future industry job roles with Microsoft Azure certifications.

**Azure.** Invent with purpose.

# Microsoft Azure certifications for IT Pros (1)

Manage hybrid cloud infrastructure

<b>Azure Administrator Associate</b> Exam AZ-104	<b>Azure Security Engineer Associate</b> Exam AZ-500	<b>Azure Stack Hub Operator Associate</b> Exam AZ-600	<b>Azure Network Engineer Associate</b> Exam AZ-700	<b>Windows Server Hybrid Administrator Associate</b> Exams AZ-800 + AZ-801
<p>Azure administrators implement, manage, and monitor an organization's Microsoft Azure environment.</p>	<p>Azure security engineers implement security controls that protect identity, access, data, applications, and networks in cloud and hybrid environments as part of an end-to-end infrastructure.</p>	<p>Azure Stack Hub operators provide infrastructure as a service (IaaS) and platform as a service (PaaS) offering to end users or customers from within their own datacenter using Azure Stack Hub.</p>	<p>Azure network engineers plan, implement, and maintain Azure networking solutions, including hybrid networking, connectivity, routing, security, and private access to Azure services.</p>	<p>Windows Server hybrid administrators configure and manage Windows Server on-premises, hybrid, and infrastructure as a service (IaaS) platform workloads.</p>
<ul style="list-style-type: none"> <li>• Manage Azure identities and governance</li> <li>• Implement and manage storage</li> <li>• Deploy and manage Azure compute resources</li> <li>• Configure and manage virtual networking</li> <li>• Monitor and maintain Azure resources</li> </ul>	<ul style="list-style-type: none"> <li>• Manage identity and access</li> <li>• Implement platform protection</li> <li>• Manage security operations</li> <li>• Secure data and applications</li> </ul>	<ul style="list-style-type: none"> <li>• Plan and deploy Azure Stack Hub</li> <li>• Provide services</li> <li>• Manage infrastructure</li> </ul>	<ul style="list-style-type: none"> <li>• Design, implement, and manage hybrid networking</li> <li>• Design and implement core networking infrastructure</li> <li>• Design and implement routing</li> <li>• Secure and monitor networks</li> <li>• Design and implement private access to Azure services</li> </ul>	<ul style="list-style-type: none"> <li>• Deploy and manage Active Directory Domain Services (AD DS) in on-premises and cloud environments</li> <li>• Manage Windows Servers and workloads in a hybrid environment</li> <li>• Manage virtual machines and containers</li> <li>• Implement and manage an on-premises and hybrid networking infrastructure</li> <li>• Manage storage and file services</li> <li>• Secure Windows Server on-premises and hybrid infrastructures</li> <li>• Implement and manage Windows Server high availability</li> <li>• Implement disaster recovery</li> <li>• Migrate servers and workloads</li> <li>• Monitor and troubleshoot Windows Server environments</li> </ul>

# Microsoft Azure certifications for IT Pros (2)

Manage hybrid cloud infrastructure

<b>DevOps Engineer Expert</b> Exam AZ-400	<b>Azure Solutions Architect Expert</b> Exam AZ-305	<b>Azure for SAP Workloads Specialty</b> Exam AZ-120	<b>Azure Virtual Desktop Specialty</b> Exam AZ-140	<b>Azure Support Engineer for Connectivity Specialty</b> Exam AZ-720
<p>DevOps engineers work with people, processes, and products to enable continuous delivery of value in organizations.</p>	<p>Azure solution architects design cloud and hybrid solutions that run on Microsoft Azure, including compute, network, storage, monitoring, and security.</p>	<p>Architects or engineers for Azure for SAP Workloads have extensive experience and knowledge of the SAP system landscape and industry standards that are specific to the initial migration or integration and the long-term operation of an SAP solution on Microsoft Azure.</p>	<p>Administrators for Azure Virtual Desktop design, implement, manage, and maintain Microsoft Azure Virtual Desktop experiences and remote apps for any device.</p>	<p>Support engineers for Azure connectivity use advanced troubleshooting methods to resolve networking and connectivity issues in Azure.</p>
<ul style="list-style-type: none"> <li>• Develop an instrumentation strategy</li> <li>• Develop a Site Reliability Engineering (SRE) strategy</li> <li>• Develop a security and compliance plan</li> <li>• Manage source control</li> <li>• Facilitate communication and collaboration</li> <li>• Define and implement continuous integration</li> <li>• Define and implement a continuous delivery and release management strategy</li> </ul>	<ul style="list-style-type: none"> <li>• Design identity, governance, and monitoring solutions</li> <li>• Design data storage solutions</li> <li>• Design business continuity solutions</li> <li>• Design infrastructure solutions</li> </ul>	<ul style="list-style-type: none"> <li>• Migrate SAP workloads to Azure</li> <li>• Design and implement an infrastructure to support SAP workloads on Azure</li> <li>• Design and implement high availability and disaster recovery (HA/DR)</li> <li>• Maintain SAP workloads on Azure</li> </ul>	<ul style="list-style-type: none"> <li>• Plan and implement an Azure Virtual Desktop infrastructure</li> <li>• Plan and implement identity and security</li> <li>• Plan and implement user environments and apps</li> <li>• Monitor and maintain an Azure Virtual Desktop infrastructure</li> </ul>	<ul style="list-style-type: none"> <li>• Troubleshoot business continuity issues</li> <li>• Troubleshoot hybrid and cloud connectivity issues</li> <li>• Troubleshoot Platform as a Service issues</li> <li>• Troubleshoot authentication and access control issues</li> <li>• Troubleshoot networks</li> <li>• Troubleshoot VM connectivity issues</li> </ul>

# Microsoft Azure certifications for Developers

Innovate with best-in-class apps

<b>Azure Developer Associate</b> Exam AZ-204	<b>DevOps Engineer Expert</b> Exam AZ-400	<b>Azure IoT Developer Specialty</b> Exam AZ-220	<b>Azure AI Engineer Associate</b> Exam AI-102	<b>Azure Cosmos DB Developer Specialty</b> Exam DP-420
Azure developers participate in all phases of development from requirements definition and design to development, deployment, and maintenance.	DevOps engineers work with people, processes, and products to enable continuous delivery of value in organizations.	Azure IoT developers implement the configuration and coding tasks required to create and maintain the cloud and edge portions of an IoT solution.	Azure AI engineers build, manage, and deploy AI solutions that leverage Azure Cognitive Services and Azure Applied AI services.	Azure Cosmos DB developers design, implement, and monitor cloud-native applications that store and manage data.
<ul style="list-style-type: none"><li>• Develop Azure compute solutions</li><li>• Develop for Azure storage</li><li>• Implement Azure security</li><li>• Monitor, troubleshoot, and optimize Azure solutions</li><li>• Connect to and consume Azure services and third-party services</li></ul>	<ul style="list-style-type: none"><li>• Develop an instrumentation strategy</li><li>• Develop a Site Reliability Engineering (SRE) strategy</li><li>• Develop a security and compliance plan</li><li>• Manage source control</li><li>• Facilitate communication and collaboration</li><li>• Define and implement continuous integration</li><li>• Define and implement a continuous delivery and release management strategy</li></ul>	<ul style="list-style-type: none"><li>• Set up the Azure IoT Hub solution infrastructure</li><li>• Provision and manage devices</li><li>• Implement IoT Edge</li><li>• Implement business integration</li><li>• Process and manage data</li><li>• Monitor, troubleshoot, and optimize IoT solutions</li><li>• Implement security</li></ul>	<ul style="list-style-type: none"><li>• Plan and manage an Azure Cognitive Services solution</li><li>• Implement Computer Vision solutions</li><li>• Implement natural language processing solutions</li><li>• Implement knowledge mining solutions</li><li>• Implement conversational AI solutions</li></ul>	<ul style="list-style-type: none"><li>• Design and implement data models</li><li>• Design and implement data distribution</li><li>• Integrate an Azure Cosmos DB solution</li><li>• Optimize an Azure Cosmos DB solution</li><li>• Maintain an Azure Cosmos DB solution</li></ul>

# Microsoft Azure certifications for Data and AI Pros (1)

Support with data and analytics

<b>Azure Database Administrator Associate</b> Exam DP-300	<b>Azure Data Engineer Associate</b> Exam DP-203	<b>Azure Data Scientist Associate</b> Exam DP-100
Azure database administrators implement and manage the operational aspects of cloud-native and hybrid data platform solutions built with Microsoft SQL Server and Microsoft Azure Data Services.	Azure data engineers integrate, transform, and consolidate data from various structured and unstructured data systems into structures that are suitable for building analytics solutions.	Azure data scientists apply data science and machine learning to implement and run machine learning workloads on Azure.
<ul style="list-style-type: none"><li>• Plan and implement data platform resources</li><li>• Implement a secure environment</li><li>• Monitor, configure, and optimize database resources</li><li>• Configure and manage automation of tasks</li><li>• Plan and configure a high availability and disaster recovery (HA/DR) environment</li></ul>	<ul style="list-style-type: none"><li>• Design and implement data storage</li><li>• Design and develop data processing</li><li>• Design and implement data security</li><li>• Monitor and optimize data storage and data processing</li></ul>	<ul style="list-style-type: none"><li>• Manage Azure resources for machine learning</li><li>• Run experiments and train models</li><li>• Deploy and operationalize machine learning solutions</li><li>• Implement responsible machine learning</li></ul>

Microsoft Azure certifications for Data and AI Pros (2)

# The journey to Microsoft Certified: Azure for SAP Workloads Specialty

[Explore Certification](#)

## Start here

Decide if this is the right certification for you

### This certification is a good fit if your responsibilities include:

- Making recommendations on services and adjusting resources as appropriate for optimal resiliency, performance, scale, provision, size, and monitoring.

**First, make sure your skills are up to date.**

### Need to update your skills in Azure administration?

[Choose Azure administrator training.](#)

### Need to update your skills in Azure architecture?

[Choose Azure solutions architect training.](#)

## Get trained

### > Exam study guide

[AZ-120](#)

### Instructor-led training

#### > [Course AZ-120: Planning and](#)

[Administering Microsoft](#)

[Azure for SAP Workloads](#)

#### > **Free Learning Consultation**

[2-Hr Private Group Training](#)

## Build confidence

### > Skills measured:

- Migrate SAP workloads to Azure
- Design and implement an infrastructure to support SAP workloads on Azure
- Design and implement high availability and disaster recovery (HA/DR)
- Maintain SAP workloads on Azure

## Get recognized

- > Pass [Exam AZ-120](#) to earn this certification.

- > Microsoft Certified:  
[Azure for SAP Workloads Specialty](#)

Architects or engineers for Azure for SAP Workloads have extensive experience and knowledge of the SAP system landscape and industry standards that are specific to the initial migration or integration and the long-term operation of an SAP solution on Microsoft Azure.

[Explore Certification](#)

## Start here

Decide if this is the right certification for you

## Get trained

### This certification is a good fit if your responsibilities include:

- Deploying, configuring, and maintaining physical devices using cloud services.
- Implementing design specifications for IoT solutions, including device topology, connectivity, diagnostics and monitoring, and security.
- Configuring device networking for the Azure IoT Edge portion of the solution.
- Implementing designs for solutions to manage data pipelines, including monitoring and data transformation as they relate to IoT.

**First, make sure your skills are up to date.**

**Need to update your skills in Azure development?**

[Choose Azure developer training.](#)

### Exam study guide

[AZ-220](#)

### Instructor-led training

[Course AZ-220: Microsoft Azure IoT Developer](#)

**Free Learning Consultation**  
[2-Hr Private Group Training](#)

## Build confidence

### Skills measured:

- Set up the Azure IoT Hub solution infrastructure
- Provision and manage devices
- Implement IoT Edge
- Implement business integration
- Process and manage data
- Monitor, troubleshoot, and optimize IoT solutions
- Implement security

## Get recognized

Pass [Exam AZ-220](#) to earn this certification.

Microsoft Certified:  
**[Azure IoT Developer Specialty](#)**

Azure IoT developers implement the configuration and coding tasks required to create and maintain the cloud and edge portions of an IoT solution.

# Why Get Certified?

## Learn how employees and businesses thrive through continuous learning

Free official Microsoft eBook

When organizations maintain a culture of certification and continuous learning, the results are both substantial and measurable - research shows well-trained teams are almost 20% more productive than other staff.

In this insightful official Microsoft eBook, you'll see stats and facts on how certification benefits both employees and organizations, including:

- How training improves timeliness, insight, and business impact
- The personal and career benefits of certification
- The direct relationship between continuous learning and higher pay
- How certification improves productivity, efficiency, and job satisfaction
