# MB-800T00: MICROSOFT DYNAMICS 365 BUSINESS CENTRAL FUNCTIONAL CONSULTANT TRAINING

Duration: 4 Days

Course Description

MB 800T00: Microsoft Dynamics 365 Business Central Functional Consultant Training provides expertise in implementing core functions to the business central. Building and optimizing for SMEs, Dynamics 365 Business Central is an app for organizations that have outlived their entry-level business applications.

Growing businesses often leave behind their legacy enterprise resource planning (ERP) system or basic accounting software that is not able to manage increased transactions and inventory.

By pursuing this course candidates will learn about security management, posting groups, financial setup, inventory management, and cover sales.

This training is designed based on the objectives of the course variant MB 800T00 A.

Who should attend this course?

- A Dynamics 365 Business Central core Functional Consultant is responsible for implementing core application setup processes for small and medium businesses.
