About Microtek Learning

We educate students in both technology and business. We manage learning.

We enhance your knowledge today for a better tomorrow.

Microtek Learning supports the development of creative learning organizations in the workplace by designing a smart workforce, facilitating change, and accelerating growth. By managing all areas of organisational learning, we have been empowering firms to achieve optimal performance results and address obstacles.

Microtek Learning has served over 80% of Fortune 100 organizations, thanks to a team of dedicated and knowledgeable learning professionals with deep subject-matter expertise. By providing a full suite of Managed Learning Services, including IT and business training, curriculum design and content development, learning delivery and administration, consulting, and advisory services, and learning technology management, we've helped over 12,000 organizations achieve their business goals.

Purpose

Enhance your knowledge today
for a better tomorrow.

Mission

To become the most trusted learning
organization in the world.

Vision

To be well-recognized, most trusted, preferred, and client-focused
flexible learning & development partner and training provider in
the education industry; thus, providing bespoke training and
development experience that meets each aspirant's goals and
aspirations.

Value Proposition

- ☐ Professionalism and Scalability
- ☐ Continuous Learning and Innovation
- ☐ Multiple learning opportunities
- ☐ Handle Complex Projects
- ☐ Blended Learning Solutions
- ☐ Focus On Business Outcome
- ☐ Global Delivery Capability
- ☐ 24*7 Operation

Our Core Values

Customer-Driven Culture

We will strive to always meet our customers' expectations. Almost all our customers would suggest us to others.

Learning Culture

We aspire to unleash the best of our clients and employees by supporting and offering chances for ongoing learning and growth.

Start-Up Culture

We created a culture of high-energy, collaborative, and creative. We don't just have duties to do; we also have missions to complete.

Performance Culture

We are committed to providing outcomes and have a performance culture. By hiring the greatest personnel available, supporting diversity, and focusing on execution, we've created a performance-driven culture.

Culture of Innovation

We aspire to be innovative all the time. Our unique solutions and creative thinking are aimed at closing the skills gap and increasing business impact.

Change Culture

We have a change culture that embraces and encourages change. We are acutely aware of the issues that our clients confront, and we support and embrace any changes that they may be forced to make.

Team Culture

We have a team culture where we trust, respect, and support one another. We've put together a group of workers, partners, and stakeholders who support our company culture and provide ongoing support to all our clients.

Our People

Our people's knowledge is important to both our and your success:

We take great pride in our organization's thought leadership and specialized knowledge. Our management teams, as a long-established organization, have unmatched competence in all areas of performance-based training, with a combined experience of over 400 years in the field.

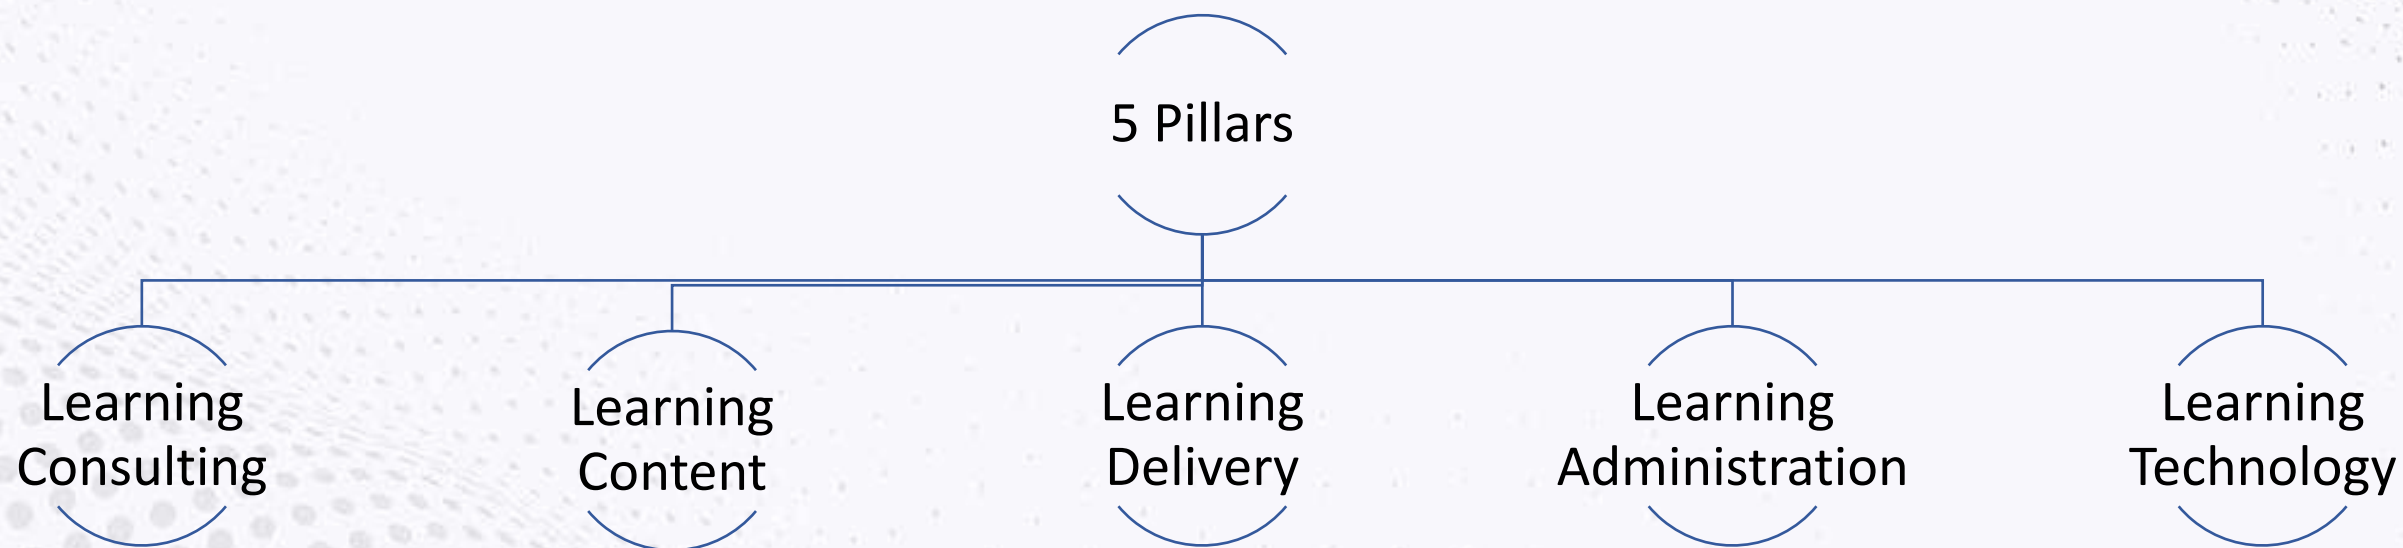

Our team is dynamic, well-rounded, and has extensive knowledge in various professions. Microtek Learning has trained over 12,000 students in the business, public, private, and government sectors.

We have a stringent hiring and evaluation process. As a result, our teachers can continuously provide our consumers with the greatest quality learning. You can be confident that you are learning from the best when you train with Microtek Learning.

- ☐ Our students have full confidence in our instructors, they consistently giving them good ratings.
- ☐ We've had over 1,000 instructors teach for us.
- ☐ More than 6,000 instructor resources specialized in information technology, business skills, soft skills, and learning themes are available through our network.

Our Services

In terms of managed learning solutions, we are the market leader. We provide the global resources and experience that enterprises and government agencies require to address the whole spectrum of training, from learning consultancy to content and curriculum development, learning administration, technology, and delivery.

Learning Content

Education programmes and resources, competence models, needs assessments, evaluations, instructor information, and more are all part of learning initiatives. You'll need a system to collect all the content, organise it, keep it current, and make sure it's easy to find when you need it.

Training Content Management

Access to a worldwide pool of content allows you to find the best courses and learning opportunities for your company.

Custom Content Development Services

Our team has over 6,000 hours of training content development experience.

Content Localization & Translation

Understanding the needs of global employees and consumers by providing solutions in a variety of native languages.

Quick Reference Cards

A quick reference with the proper combination of graphics and text that provides tips and tricks. Organizations can use it as a simple manual for proprietary products and important topics including information, instructions, processes, and procedures.

Custom Learning Videos

A method that focuses on visually appealing information while also being informative. Setting up the location, choosing speakers, writing the plan and script, screen capture, graphic design, feedback, revisions and review, and final production are all included in our service.

Learning Consulting

It's far too critical and difficult to develop and implement a learning strategy on your own. A learning management service with access to proven competency models, sourcing databases, and exams, can walk you through the process, offer advice, and help you with a variety of responsibilities. Microtek Learning offers high-quality training and managed learning consulting solutions to help your company meet its learning objectives.

Organizational Learning Programs

- synchronise training and learning plans throughout the company.

Certification Development

- Evaluate skills and capacities, as well as the training's return on investment.

Learning Strategy Development

- Identify and qualify methodologies, procedures, and learning technology in order to develop a learning strategy.

Learning Needs Analysis

- A thorough examination of employees' abilities, behaviours, and performance.

Competency Model Development

- Identify skill gaps and create a framework for organizational growth.

Learning Assessment

- A pre and post-training evaluation to ensure that the client's criteria are met.

Workforce Development

- A solid intersection of services that offers clients a complete solution.

Learning Delivery

Learning can be delivered in a variety of ways. Choosing the correct alternative or solutions to fit your budget, fulfil your goals, and match both learner and organizational needs is part of managing your learning operations.

Custom Training

Training sessions that are relevant to the brand's value and image. We assist our clients in solving their business difficulties by reaching ultimate performance wherever in the world, from basic solutions to the most challenging specialized approaches.

Private Training

Custom-made assessments for increased learner engagement. We can deliver private learning in any classroom - at your location, our location, or online - in any time zone and from anywhere in the world.

Our live Online Training

LOT solution was developed after extensive testing in virtual settings and provides an interesting learning experience. It has the most comprehensive remote classroom capacity in the training industry.

e-Learning Services

We're your one-stop shop for all e-learning needs. By providing requirement analysis, curriculum design, content development, delivery and management of material, and analytics that track usage, learner progress, and measure training ROL, we can provide end-to-end solutions globally.

Learning Administration

Managing learning operations entails a remarkable amount of responsibilities, ranging from arranging assessments and resources to planning, updating, and scheduling courses and negotiating with vendors. A centralised administrative and marketing function, whether handled in-house or outsourced, helps you control expenses and ensure that everything is completed correctly.

Instructor Resource Management

Ability to carry out rigorous methods to discover best-in-class educators. To fulfil a global initiative or development, we can easily scale and recruit trainers.

L&D Resource Management

Microtek Learning provides L&D Resource Management to assist firms in finding, qualifying, and onboarding Learning and Development experts such as trainers, instructional designers, content producers, training managers, and other specialists.

Vendor Management

We help organisations decrease costs and improve the overall quality of training programmes and learning outcomes by using our years of learning delivery experience and thousands of training partners across the world.

Learning Operations & Logistics

We handle the operational and back-office details so you may concentrate on other projects and business demands.

Practice Areas

We have over 2,500 courses to meet the technological and business training needs of any enterprise. We are experts in areas that enable firms to acquire competitive advantages, from authorized or basic training to specialty certificates.
