

Redefining The Skills

MS-900T01: MICROSOFT 365 (M365) FUNDAMENTALS TRAINING

Duration: 1 Day

Course Description

MS-900T01: Microsoft 365 (M365) Fundamentals Training is designed to help professionals develop a foundational understanding of the consideration and advantages of adopting cloud services. It familiarizes with cloud fundamentals, which includes an explanation of cloud computing.

This technical course introduces MS Azure, and individuals will also get to know about the differences between Office 365 and MS 365. We have also developed an enterprise training program for corporate organizations.

It helps in understanding cloud device protection and management, which includes the use of Intune. Professionals will learn to demonstrate compliance in general and MS 365 licenses, subscriptions, support, and billing.

This training program is perfect for IT Professionals who are interested in learning about cloud fundamentals and individuals preparing for the MS-900T01: Microsoft 365 (M365) Fundamentals exam.

This training is designed based on the objectives of the course variant MS-900T01-A.

Training Exclusives

- Live instructor-led interactive sessions with Microsoft Certified Trainers (MCT).
- Access to Microsoft Official Courseware (MOC).
- Real-time Virtual Lab Environment.
- Experience 24*7 Learner Support.
- Self-paced learning and flexible schedules.

Who should attend this course?

- This training is aimed at IT Professionals aspiring to gain knowledge about deploying and managing cloud services in their organization or individuals who simply want to acquire foundational knowledge on cloud fundamentals.
