HL7 FHIR Exam Prep

The Comprehensive HL7 FHIR Proficiency Exam Preparation Course

Duration: 1 Day

Exam Voucher: Yes

Level: Intermediate

Language: English

- 1-days instructor-led FHIR training
- HL7 certified instructor
- Discussion session also included
- Each module includes exercises

Become the team's go-to FHIR expert and assist your company in deciding whether, when, and how to deploy the technology.

We can assure you that Microtek Learning is always working to develop the standard and will only teach you the latest updates.

- Learn from highly qualified professionals
- 50% of the exercises will be hands-on and group based.
- Sign up for an upcoming class or arrange for corporate training.
- Training can be customized to your individual needs.

Who should attend:

- HL7 FHIR Proficiency Exam candidates who want a conceptual understanding of FHIR

At the end of the course, participants will be able to:

- Obtain a thorough understanding of the ideas needed to pass the HL7 FHIR R4 Proficiency Exam.
- Recognize the format and sorts of questions on the examination.
- To determine the right answers on the test, use the right test-taking techniques.
- Take 150+ objective quiz questions to completely prepare for the test.

What to Expect:

- Instructors that are both working professionals and experts in HL7 FHIR
- Instructors with HL7 certification who evaluate and comment on each module
- Discussion boards that encourage participation and interaction
- Each module includes exercises that put what you've learned into practice.

Prerequisites

- Having a foundational understanding of FHIR is beneficial but not necessary.

Disclaimers

- Quizzes and other forms of objective evaluation are used in every activity. There are no practical or subjective exercises throughout the course.
- This course does not replace any of the current HL7 FHIR courses.
- The completion of the course does not guarantee success on the certification exam.
